G. L. TABER, JR.

Fellow Nurserymen:

Although our plans for a "more normal" year did not quite work out and we lost most of our field citrus as a result, we are still hoping and planning. Fortunately, we were able to save the better part of the container citrus which is, at this date (July), looking very good. The deciduous fruits are flourishing too and should make extra large grades by fall.

Our canned goods department continues to thrive and gradually expand, much to our satisfaction and, we believe, to the edification of all of you who have perhaps seen and sampled it in less flourishing condition.

By the time you read this (he's due back in August) our ex-sailor son and one-time Glen salesman, etc., etc., will be back at his old desk again. Upon its gleaming glass top sits a smug little name plaque reading "33rd Vice President." Much as Lin enjoys this doubtful distinction, he will probably get a greater kick from hopping around the State in his new Greenbrier Wagon, with the firm intention of making steady customers of some of you nurserymen who have been too much strangers of late.

With thanks for last season, and anticipation for the one coming up, may we remind you that "Glen Grown Means Well Grown."

GEORGE L. TABER, JR., *President*

A NEW GRADING SYSTEM

In this Price-List we are continuing and expanding the use of "Grades and Standards for Nursery Plants" in cooperation with the Florida Nurserymen & Growers Association.

We urge all of you who read this, both in and out of Florida, to familiarize yourselves as quickly as possible with details of the plan by obtaining a copy of this loose-leaf book from the Florida State Plant Board, Gainesville, Florida. It is our sincere hope that this new system will be well received by all who use our products and that, as its potential benefits come to be gradually recognized, its use will spread to encompass our industry throughout the Southeastern States.

NOTE:

When separate prices are not shown for the three grades —Fancy, No. 1 and No. 2—the price of the items in question will be for No. 1 grade. The addition of 50% to the catalog price will give the figure for Fancy Grade. By the same token, the subtraction of 20% from the catalog price will give the price for No. 2 grade.

● ● ● ●

CAMELLIAS

Class A

ADOLPHE AUDUSSON. Very large, semi-double flower, deep red with darker veins. Thick, dark green leaves with serrated margins. B, C.

ADOLPHE AUDUSSON VARIEGATED. Like the preceding but beautifully streaked and mottled red and white. Prominent stamens and few petaloids. Flowers 3½ to 4 inches in diameter. A, B.

ALBA PLENA. White, large, formal double. Slow, bushy growth. Early. A, B.

FRED SANDER (Fimbriata Superba). Crimson with curled, fringed petals. Quite unusual and very desirable. A.

GIGANTEA (Kellingtonia; Emperor Wilhelm; Gaiety). Red, marbled white. Very large, semi-double; rose form double, loose, open to peony form. Midseason. A, B, C, D.

IL TRAMONTO. Very large, formal double, rose-pink mottled and striped white. Midseason. A, C, D.

LADY CLARE (Empress; Nellie Bly). Deep pink. Very large, semi-double. Vigorous, bushy growth. Early to midseason. A, B, C, D.

LADY MILDRED. Crimson-red with darker veins. Large, semi-double with thick, round, creped petals and pink filaments. B, C.

MATHOTIANA (Mathotiana Rubra; Purple Dawn; Julia Drayton). An enormous rose form to formal double. Deep rose-red petals that take on a violet tint as the flower matures. Vigorous, compact, upright growth. Midseason to late. One of the finest of the red Camellias. A, B, C, D.

WHITE EMPRESS. Very large, semi-double, with fluted petals. Vigorous, compact, upright growth. A, B, C.

B&B, Shade-Grown		10	100
(A)	8 to 12 in.	$12 50	$115 00

Please read carefully our conditions of sale in back of catalog before ordering.

Class B

BLOOD OF CHINA (Victor Emmanuel). Deep salmon-red. Large, semi-double to loose peony form. Vigorous, compact growth. Late. B, C.

C. M. HOVEY (Wm. S. Hastie; Col. Firey). A truly magnificent flower of deepest red, large, formal double. Medium slender, upright growth. Late. A, B, C, D.

DEBUTANTE (Sara C. Hastie). Light pink. Large, full peony form. Vigorous, upright growth. Early to midseason. B, C, D.

ELEGANS (CHANDLER) (Chandleri Elegans Pink; Francine). Rose-pink with center petaloids often spotted white. Very large, loose form. Slow, spreading growth. Early to midseason. B, C.

E. L. STEELE. White. Medium large, peony form. Midseason. A, B, C.

ELISABETH (Montironi; Trois Marie). White, sometimes striped light pink. Medium, formal double. Vigorous, upright, spreading growth. Late. B, C, D.

ENRICO BETTONI. Very large, full, peony-form flowers of clear satiny pink. C, D, E.

GLOIRE DE NANTES (Rose Glory; Autumn Rose). Rose-pink. Large, semi-double. Medium, compact, upright growth. Early. A, B, C, D.

HERME (Jordan's Pride; Souv. de Henri Guichard). Pink petals with irregular white border and deep pink streaks. Large, semi-double. Vigorous, upright growth. Midseason. A, B, C, D.

JARVIS RED. Turkey-red. Medium, semi-double with tufted center of smaller petals. Vigorous, wide spreading growth. Midseason. B, C, D.

PINK PERFECTION (Frau Minna Seidel; Usu-Otome). Shell-pink. Medium, formal double. Vigorous, upright growth. Early to late. A, B.

PINK STAR. Rose-pink. Large, semi-double with pointed outer petals and stamens among central petaloids. Slow, compact, upright growth. Midseason. B, C.

CAMELLIA, MATHOTIANA RUBRA

CAMELLIA, SEMI-DOUBLE BLUSH

CAMELLIAS—Class B, continued

PRINCE EUGENE NAPOLEON (Pope Pius IX). Double, bright red flowers of good size. Early to midseason. A, B.

PROF. C. S. SARGENT. Dark red. Medium, full peony form. Vigorous, compact, upright growth. Midseason. A, B, C.

SEMI-DOUBLE BLUSH (Celtic Rosea; Pearl of China). Blush-pink Medium, semi-double. Slow, upright growth. Midseason. B, C, E.

ABELIA GRANDIFLORA

SHRUBS AND HEDGE PLANTS

ABELIA GRANDIFLORA

One of our very best evergreen shrubs for foundation plantings, corner groups, single specimens, or ornamental hedges. The small leaves are bright glossy green, turning to a beautiful bronze in winter. Its flowers come in early May and the plant is covered with bloom until late autumn.

Bushy trimmed

Bare-Root	10	100

Gal. cans	5 00	

ACACIA FARNESIANA (Opopanax)

A thorny, much-branched shrub that grows to a height of 10 feet. The fragrant yellow flowers come in small clusters.

	10
5-qt. cans, 3 to 4 ft.	$12 50

ASPIDISTRA LURIDA

Most satisfactory for house conditions and outdoors in shade. Large, dark green leaves.

Per leaf	$0 05

BERBERIS MENTORENSIS

A vigorous, upright grower with thick, deep green leaves. Colors up nicely in winter and often retains a good part of its foliage here in the South.

B&B	10	100
8 to 12 in.	$10 00	$90 00
12 to 18 in.	15 00	140 00
18 to 24 in.	20 00	185 00

BERBERIS THUNBERGI ATROPURPUREA

The Red Barberry is a very colorful and useful shrub with wine-red foliage and red berries. Although more used in the North, we have found it entirely successful here.

B&B	10
12 to 18 in.	$11 00
18 to 24 in.	13 50
2 to 3 ft.	17 50

BUXUS HARLANDI

Dark green, elongated leaves, rather square at the ends; grows thick and round with little trimming. Stands more cold than Japonica. Excellent!

If you don't see it listed, call or write us about it. We may be able to help you.

BUXUS JAPONICA (Japanese Boxwood)

Compact, small-leaved evergreen shrub for borders and hedges.

Bed-Grown	10	100
4 to 6 in.	$2 50	$20 00
6 to 8 in.	4 00	35 00

Gal. cans, 10 to 12 in.	8 50	

CAMELLIA SINENSIS (Tea Plant). See page 13.

CASSIA BICAPSULARIS

Showy legume bearing bright yellow bloom profusely in late summer and fall. Grows to 10 feet; evergreen in temperate climates.

	10
5-qt. cans, 12 to 18 in.	$6 50
5-qt. cans, 18 to 24 in.	8 50
5-qt. cans, 2 to 3 ft.	10 00

CLEYERA JAPONICA

A fine evergreen shrub with rather thick, glossy leaves and creamy white, fragrant flowers. Berries red in early fall. An upright grower, reaching a height of 10 to 12 feet. Will withstand wet or dry situations with equal ease and seems to have few insect or disease enemies. We recommend it highly for trial as far north as Atlanta inland or Wilmington, North Carolina, on the coast.

ELÆAGNUS, VARIEGATED

White splotched leaves.

	10
Gal. cans, 8 to 12 in.	$7 50

EURYA JAPONICA

A low-growing, partly dwarf plant with elongated narrow leaves having a well-defined midrib of bright green. Small, greenish white flowers are followed by black fruits. The plant presents a fan-shaped aspect from two sides.

	10
Gal. cans, 12 to 15 in.	$8 50

FATSHEDERA LIZEI

A bigeneric hybrid between Fatsia and Hedera. Semi-climbing vine with large, glossy green leaves. Evergreen.

	10
Gal. cans	$10 00

FEIJOA SELLOWIANA (Pineapple Guava)

B&B	10
12 to 18 in.	$10 00
18 to 24 in.	14 50
2 to 3 ft.	20 00
10-in. cans, 18 to 24 in.	17 50
Gal. cans, 12 to 18 in.	7 50

We can usually arrange to truck your order if it amounts to $300.00 or more, at 25c per mile one way.

Please read carefully our Conditions of Sale in back of catalog before ordering.

One of the most popular dwarf-growing types of Holly. Small leaves and compact type of growth.

	10
Gal. cans, 6 to 8 in.	$7 50
Gal. cans, 8 to 10 in.	10 00

ILEX CRENATA HETZI

This variety has convex leaves like Bullata, but somewhat larger. Bright green foliage.

	Each
10-in. cans	$2 00
Gal. cans, 12 to 15 in.	85

ILEX VOMITORIA (Yaupon)

A native evergreen Holly with small, deep olive-green foliage and bright red berries produced in great profusion all along the branches. This is one of our most desirable shrubs for foundation, border and hedge planting. It may be kept sheared to any shape or size desired, and makes excellent specimens for formal planting.

Sheared Specimens B&B, Grafted	10
18 to 24 in.	$21 00
2 to 3 ft.	30 00

ILEX VOMITORIA NANA

Dwarf, slow-growing type. Small leaves.

	10
Gal. cans, 6 to 8 in.	$7 50
Gal. cans, 8 to 10 in.	10 00

JASMINUM FLORIDUM

Fine evergreen shrub with bright yellow flowers in spring and summer. Hardy; low growing.

	10
Gal. cans	$7 50

LAGERSTROEMIA INDICA (Crape-Myrtle)
Rose Watermelon-Red William Toovey

Bare-Root	10
18 to 24 in.	$5 00
2 to 3 ft.	7 00
3 to 4 ft.	10 00
4 to 5 ft.	15 00
5 to 6 ft.	22 50

B&B, double above prices.

LAGERSTROEMIA INDICA, PURE WHITE

A distinct improvement over the old-time type, this latest acquisition is a profuse bloomer. Flower heads are larger, and there is no other color in them but white and the yellow of the stamens. Growth habit is stocky, compact and vigorous, thus permitting a choice of either tree-form or shrub, according to preference of growth. New Pure White is something special in Crape-Myrtles!

Bare-Root	10

LIGUSTRUM CORIACEUM (Dwarf Privet)

A small, bushy, hardy variety, with extremely dark green, crinkled leaves. Very ornamental. A handsome variety known also as *L. japonicum rotundifolium.*

B&B	10	100
12 to 18 in.	$12 00	$110 00
18 to 24 in.	15 50	145 00
2 to 3 ft.	21 50	

LIGUSTRUM ERECTA

New compact and semi-upright variety, having the appearance of a Nobile-Iwata hybrid. While apparently not as hardy as Lucidum, this fine variety has much to recommend it.

LIGUSTRUM EXCELSUM SUPERBUM

A very showy sort with brightly variegated green and white leaves. A rapid grower, good for screens and windbreaks.

LIGUSTRUM IWATA

LIGUSTRUM LUCIDUM (Wax-leaf Privet)

LIGUSTRUM NOBILE

Our Ligustrums are grafted on root-knot resistant Quihoui stocks, except where otherwise noted.

LIGUSTRUM, SUWANNEE RIVER

LIGUSTRUM LUCIDUM, SHEARED

B&B	10
18 to 24 in.	$22 00
2 to 3 ft.	28 50
3 to 4 ft.	38 50

LIGUSTRUM, SUWANNEE RIVER. Plant Patent No. 1402.

We are growers of Suwannee River Ligustrum on Quihoui root. Suwannee River is a dwarf patented Privet, introduced by Wight Nurseries in fall, 1954. This variety is slow enough in growth to be planted around a modern ranch-type home, and yet grows fast enough that it can sell at a reasonable price.

Suwannee River is a hybrid, the parents being *Ligustrum lucidum* (Wax-leaf Privet) and *Ligustrum coriaceum*. The foliage is a deep lustrous green, smaller than Wax Ligustrum, and slightly twisted. The nodes are close together, so that the foliage almost completely hides the woody stems. It appears to be immune from attacks of white fly and other insects. It should be an excellent addition to the broad-leaved evergreens for the Southeast, the Southwest, and the Pacific Coast. It is also being tested in other regions to determine its hardiness.

NANDINA DOMESTICA

OSMANTHUS FORTUNEI

Attractive evergreen shrub to 6 feet, somewhat resembling *Olea fragrans*, with spiny-toothed leaves and fragrant creamy yellow flowers. Rather slow grower.

B&B	10
12 to 18 in.	$12 50
18 to 24 in.	17 50
2 to 3 ft.	27 50
Gal. cans, 12 to 18 in.	8 50
Gal. cans, 18 to 24 in.	10 00

PHOTINIA GLABRA

A very handsome, hardy, evergreen shrub which will grow to a height of approximately 15 feet. The new foliage is wine colored and most attractive. The white flowers are carried in clusters and are followed by round red fruits. Prefers a sunny location in well-drained soil.

B&B	10
12 to 18 in.	$12 50
18 to 24 in.	15 00

PHOTINIA SERRULATA

This variety grows to a much greater height than Glabra and is a beautiful sight in summer with its dark green, serrated leaves and large clusters of white flowers. In winter it is covered with scarlet fruit.

B&B	10	100
12 to 18 in.	$10 00	$85 00
18 to 24 in.	13 50	120 00

5 to 6 ft.	50 00	450 00
6 to 8 ft.	77 50	

PITTOSPORUM TOBIRA

Does well in full sun and is one of the finest evergreens for shady places and for seaside planting.

	10
Gal. cans, 12 to 18 in.	$8 00
5-qt. cans, 18 to 24 in.	12 50
10-in. cans, 2 to 3 ft.	17 50

PLUMBAGO CAPENSIS (Cape Plumbago)

	10
Gal. cans	$6 00

PYRACANTHA BELLI

Interesting red-fruiting type. Growth spready like Formosana and foliage almost identical. Berries even larger and well distributed over the plant

---

This may save you a trip: Don't take a chance, but contact us before coming or sending for a load (particularly in winter months) unless your order has previously been received and acknowledged.

PYRACANTHA FORMOSANA

The productiveness of this improved variety is amazing! Fruit is a deep glossy red, borne in immense clusters. The growth resembles Lalandi but is not so upright.

	10	100
Gal. cans, 18 to 24 in.	$8 50	$75 00
10-in. cans, 3 to 4 ft.	25 00	

RAPHIOLEPIS JAPONICA

A handsome, hardy evergreen shrub with leathery, bright green foliage and dense clusters of very fragrant, white flowers in spring. Fine for seashore planting. Rather slow growth.

B&B	10
12 to 18 in.	$12 50
18 to 24 in.	17 50
2 to 3 ft.	22 50
3 to 4 ft.	32 50

SEVERINIA BUXIFOLIA

A hardy evergreen shrub with small leaves. Flowers sweet-scented, followed by black berries. A good low-growing shrub or hedge plant with sharp thorns.

B&B	10	100
18 to 24 in.	$15 00	$125 00
Gal. cans	6 50	

SPIRÆA CANTONIENSIS

Deciduous shrubs, blooming profusely in early spring and very effective when planted in masses, around borders, or in beds. Compact-branching. Flowers pure white, single.

ALBIZZIA JULIBRISSIN (Mimosa Tree)
Deciduous spreading tree with finely divided, dark green leaves. Large clusters of pink flowers in summer.

	10
Gal. cans, 18 to 24 in.	$7 50

CERCIS CANADENSIS (American Redbud)
The American Redbud or Judas Tree is a small, nicely shaped, deciduous tree with rounded leaves and produces an abundance of rosy pink flowers in early spring. As the blooms appear before the foliage, a Redbud in full flower is a lovely picture.

Bare-Root	10
2 to 3 ft.	$10 00
3 to 4 ft.	15 00

B&B, double above prices.

CERCIS CANADENSIS ALBA (White Judas Tree)
One of the most unusual spring-flowering trees to be found anywhere is the white variety of Redbud (*Cercis canadensis alba*). Bloom is pea-like, pure white and is usually produced in early spring before the leaves appear.
Although in many respects the tree is similar to the usual type, Alba foliage is much lighter green upon the upper surface than that of Canadensis. Its broad, flat head of thornless, angular branchlets is distinctive wherever seen.
Unquestionably, Alba is rare and deserving of an important position in the American horticultural picture.

Bare-Root	10
2 to 3 ft.	$17 50
3 to 4 ft.	22 50

B&B, double above prices.

Quantity prices will be quoted on request on any items where only 10 rate is shown.

For Florida Nurserymen: your state organization is the F. N. G. A. Join and make it strong.

CITRUS UNSHIU (SATSUMA ORANGE)

Left: FLORIDA FANCY; Center: FLORIDA NO. 1; Right: FLORIDA NO. 2

We introduced the Satsuma to the trade in 1888 and subsequently have endeavored to maintain a pure strain, as well as improve our growing methods over the years. How well we have succeeded may be learned from hundreds of our satisfied customers all over the citrus growing area of the South.

Although it is possible to make a nicely shaped, thrifty tree using the No. 2 grade as a beginning, this result may be much more easily and cheaply attained if straight-stemmed, well-headed nursery stock is purchased at the outset. (See No. 1 at left.)

CITRUS MITIS (CALAMONDIN)

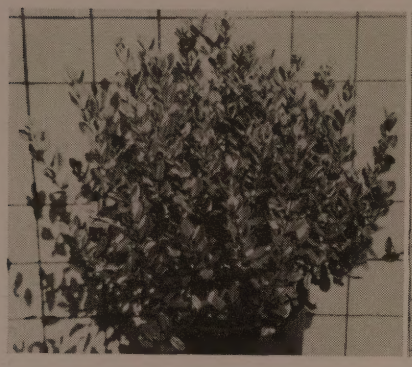
Left: FLORIDA FANCY; Center: FLORIDA NO. 1; Right: FLORIDA NO. 2

This always popular decorative variety is sometimes grafted and sometimes grown from cuttings. We do both but whatever the propagating procedure, our plants, whether field grown or in containers, can be expected to be at least as good as No. 1, and some few will attain the proper degree of perfection to class as Florida Fancy. Fruit is nearly always present on those Calamondins that are large enough to carry it.

LIGUSTRUM LUCIDUM

FLORIDA FANCY | FLORIDA NO. 1 | FLORIDA NO. 2

One of the least uniformly grown varieties of nursery stock and at the same time the most amenable to proper cultural practices! We will always be able to supply all three grades to fit any kind of situation or any budget. The Glen No. 1's are adequately trimmed plants, grafted, as a root knot inhibitor, and of ample appeal to satisfy almost any requirements.



FEIJOA SELLOWIANA

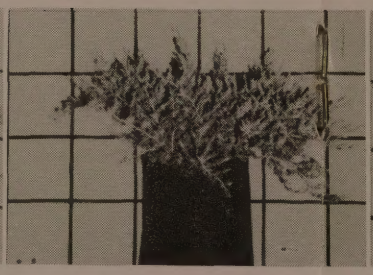
FLORIDA FANCY | FLORIDA NO. 1 | FLORIDA NO. 2

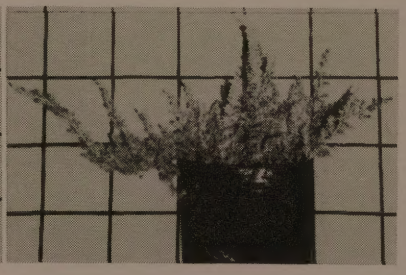
This is a prime illustration of the grading system and depicts clearly what to look for in a "Mexican Guava." Feijoa must be kept trimmed or it will become loose and leggy. Probably the best time to do it is in early spring, in order that the attractive bloom is not sacrificed.

ELAEAGNUS PUNGENS

FLORIDA FANCY | FLORIDA NO. 1 | FLORIDA NO. 2

Here is a shrub that likes to grow! Unless forcibly restrained at regular intervals, it will form an impenetrable mass and continue to spread out over the surrounding country. This may sometimes be an advantage, however, if a solid hedge or screen is desired. Elaeagnus will tolerate seaside conditions and a delicious jelly can be made from its fruit.





JUNIPERUS CONFERTA

FLORIDA FANCY | FLORIDA NO. 1 | FLORIDA NO. 2

Our policy of using two plants to the can insures a fuller finished effect, calculated to appeal to all who need this adaptable variety. Most of our Confertas will class No. 1, but a few should be available in No. 2 for less particular jobs where price is the biggest factor in the sale.

PODOCARPUS MACROPHYLLA (P. MAKI)

Left: FLORIDA FANCY
Center: FLORIDA NO. 1
Right: FLORIDA NO. 2

Since we first began to grow the Podocarpus varieties there has been a gradual evolution going on in regard to their culture, with particular reference to the finished appearance and shape of the plants when ready to sell. Time was when almost anything that was labeled "Podocarpus" would suit the customer. Now, however, the story is different and most plants must be trained and trimmed to look like No. 1 (at left) or better, in order to sell in a highly competitive market.

CERCIS CHINENSIS (Chinese Redbud)

An Asiatic Redbud with purplish pink flowers. Individual blooms, often measuring ¾ inch in length, are borne in heavy clusters along the branches. Ultimate height is said to be around 50 feet and the rate of growth is somewhat faster than that of Canadensis. The foliage and general appearance of the tree is very similar to that popular and well-known type.

Bare-Root	10
2 to 3 ft.	$10 00
3 to 4 ft.	15 00

B&B, double above prices.

CORNUS FLORIDA (Dogwood)

A small tree or large shrub with a spreading bushy top. Beautiful flowers are followed by scarlet fruits; fall foliage brilliantly colored.

Not Grafted.

Bare-Root	10
18 to 24 in.	$6 00
2 to 3 ft.	8 50
3 to 4 ft.	13 50
4 to 6 ft.	18 50

B&B, double above prices.

CORNUS FLORIDA, ALACHUA

Another outstanding Glen introduction similar or superior to Weaver in growth and bloom.

	10
Gal. cans, 18 to 24 in.	$15 00

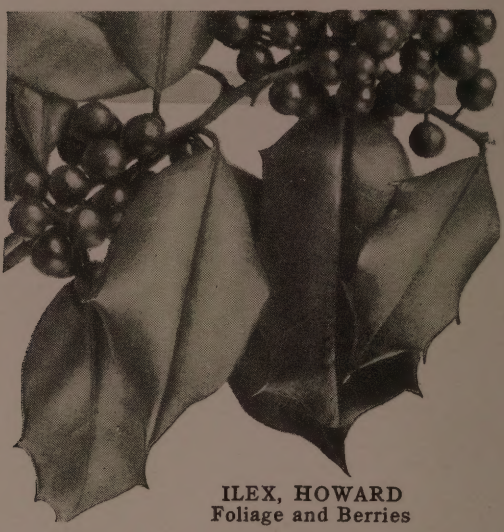
CORNUS FLORIDA, WEAVER

This is a superior variety. Because of unique foliage coloring and formation, Weaver is readily distinguishable from ordinary Seedling Dogwoods. Blooms are more numerous and larger, therefore appearing whiter. Trees of Weaver reach blooming age more quickly than any Dogwood we have grown heretofore.

	10
Gal. cans, 12 to 18 in.	$12 50
Gal. cans, 18 to 24 in.	15 00

Please read carefully our Conditions of Sale in back of catalog before ordering.

CERCIS CANADENSIS ALBA (White Judas Tree)
See page 14



ILEX, HOWARD
Foliage and Berries

HOLLIES

There is practically no section of the United States where some kind of Holly cannot be grown. In fact, it is easily possible to landscape a property entirely, from hedge to shade trees, with some variety of evergreen Holly. The small and medium sizes are readily transplanted and shipped bare-root during their dormant season (November through February), while the larger tree and shrub types are best handled B&B.

All our American Hollies (*Ilex opaca*) are grafted or cutting-grown from the finest selected strains of fruiting trees and are much superior to seedlings. Choose any one offered below, or order the whole collection.

Cassine (Dahoon). This native evergreen variety is very satisfactory in the South but is not recommended for the colder sections of the country. The tree is low and spreading in habit. Leaves are bright and glossy, without spines. It is a heavy bearer, the branches being literally covered with bright red berries.

Croonenberg. A Greenbrier introduction. Upright, rather compact grower with fine dark green foliage of larger than average size and spiny leaves. Berries are a good red and produced when the trees are very young.

Howard. The most popular variety we grow. Foliage very dark and glossy, with some spines; berries red and attractive.

Savannah. An upright and rapid grower, this Holly attains true form sooner than most. Foliage abundant, leathery, bright. Berries good size, of fine color. Leaf petioles and branch tips are purple in new growth.

All preceding Hollies:

LAUROCERASUS CAROLINIANA (Cherry Laurel; Carolina Laurel)

A splendid native, broad-leaved evergreen tree with bright, glossy leaves. Unrestricted specimens reach a height of 40 feet or more. They are true shade trees, blooming profusely when grown in this form. The flowers are white and slightly fragrant. Well adapted to shearing and shaping into pyramids, columns, globes, etc., as well as for hedges.

B&B	10
18 to 24 in.	$10 00
2 to 3 ft.	15 00
3 to 4 ft.	20 00
10-in. cans, 2 to 3 ft.	17 50

MAGNOLIA GRANDIFLORA

The great Bull Bay is the South's finest native evergreen tree; forest specimens often reach a height of 80 feet. The trees are roughly pyramidal in form with heavy leaves 5 to 8 inches long, glossy dark green above, and covered with soft brown felt beneath. The picture made by one of these magnificent trees in the sunlight is one any home-owner may justly be proud of. The flowers, which are produced over a period of two to three months in summer, are great waxy, creamy white saucers, 7 to 8 inches across, each bloom with a mass of yellow stamens and giving out a delightful fragrance. Its flowers are followed by large pods covered with brilliant red seeds.

Magnolia Grandiflora Seedling

MALUS ANGUSTIFOLIA (Flowering Crabapple)
The native Flowering Crabapples often reach 25 feet and rival in beauty the flowering cherries of Washington fame. (SOLD OUT FOR SEASON.)

PLATANUS OCCIDENTALIS (American Plane Tree or Sycamore)
Growing to 150 feet, this handsome tree with its big leaves and scaly whitish bark is a familiar sight.

B&B	10
8 to 10 ft.	$75 00
10 to 12 ft.	125 00

POPULUS NIGRA ITALICA (Lombardy Poplar)
Grows 40 to 50 feet. The well-known Italian variety. A tall, pyramidal, compact and rapid-growing tree. Very desirable where a formal effect is wanted.

Bare-Root	10
2 to 3 ft.	$6 00
3 to 4 ft.	8 50
B&B, double above prices.	
	Each
Egg cans, 3 to 5 ft.	$1 75

QUERCUS AQUATICA (Water Oak)
A tall and fast-growing Oak, to 80 feet. Nearly evergreen in our climate. Bluish green leaves about 3 inches long.

QUERCUS PRINUS (Michauxi) (Basket Oak)
Often attains 100 feet. Leaves deciduous, to 7 inches long, coarsely toothed, shiny bright green above and grayish pubescent beneath. The acorns are over an inch in length. A relatively fast grower.

QUERCUS VIRGINIANA (Live Oak)
Famous both as landmarks of southern history and for their majestic beauty. The longest-lived and slowest-growing of the two varieties, this evergreen tree reaches 60 feet in height and spread. The shining dark green leaves are elliptic to oblong.

Bare-Root	10	100
3 to 4 ft.	$11 50	$100 00

4 to 5 ft.	40 00
5 to 6 ft.	60 00
6 to 8 ft.	80 00

JUNIPERUS VIRGINIANA GLAUCA

A beautiful upright type that naturally tends to rather close but somewhat irregular pyramidal shape. A soft blue-gray of same general shade as Colorado Blue Spruce. Takes trimming well.

B&B	10
18 to 24 in.	$2 50
2 to 3 ft.	3 50
3 to 4 ft.	5 00

PODOCARPUS

PINUS CARIBÆA (Slash Pine)
The Pine for which the South is famous. Its straight, smooth trunk is topped with a dense, plumy head. Cones are numerous and decorative.

	10
Gal. cans, 12 to 18 in.	$6 50
10-in. cans, 3 to 4 ft.	17 50

PODOCARPUS MACROPHYLLA (LONGIFOLIA)
A beautiful upright evergreen tree that may reach a height of 40 feet if left to grow naturally. The leaves, to 4 inches long, are narrow, glossy dark green, and paler beneath.

B&B, Bushy-trimmed	10
12 to 18 in.	$13 50
18 to 24 in.	16 50
Gal. cans, 12 to 18 in.	8 50

PODOCARPUS MACROPHYLLA MAKI (Japanese Yew)

B&B, Bushy-trimmed	10	100
12 to 18 in.	$15 00	$135 00
Gal. cans, 12 to 15 in.	10 00	90 00
5-qt. cans, 15 to 18 in.	12 50	115 00
10-in. cans, 15 to 18 in. (bushy-trimmed)	17 50	

PODOCARPUS NAGI
Perhaps the most striking of the Podocarpus family in appearance, this shapely tree may attain 90 feet. Leaves shiny dark green above, paler beneath, and sharp pointed to 3 inches lanceolate.

B&B	10
12 to 18 in.	$15 00
18 to 24 in.	20 00
2 to 3 ft.	27 50
3 to 4 ft.	37 50
	Each
Gal. cans, 18 to 24 in.	$1 25

PODOCARPUS SEEDLINGS

B&B	10
18 to 24 in.	$15 00
2 to 3 ft.	17 50

RETINOSPORA PISIFERA ERICOIDES
Fast growing, upright, columnar. Light green, changing to purplish bronze in cold weather.

RETINOSPORA PISIFERA SQUARROSA VEITCHI
A rapid-growing variety with silvery blue foliage. It is a handsome, distinct conifer, reaching a height of 15 to 20 feet, and shears well.

B&B	10
12 to 18 in.	$8 00
18 to 24 in.	10 00
2 to 3 ft.	15 00
3 to 4 ft.	20 00
4 to 5 ft.	27 50
5 to 6 ft.	37 50
6 to 8 ft.	47 50

PALMS AND CYCADS

CHAMAEROPS HUMILIS
The only Palm native to Europe. Small, graceful, fan-shaped leaves are borne on multiple stems. Usual height 3 to 5 feet. Easily grown; hardy along the Gulf Coast and somewhat northward.

	Each
Gal. cans	$1 00

COCOS AUSTRALIS
A beautiful Palm, of vigorous growth, with grayish green, curved leaves. A very hardy sort, and one of the finest Palms for the Gulf Coast country.

B&B	10	100
18 to 24 in.	$22 00	$200 00
2 to 3 ft.	30 00	
3 to 4 ft.	40 00	
		Each
Egg cans, 18 to 24 in.		$2 25

CYCAS REVOLUTA (Sago Palm)
A Palm-like cycad reaching a height of 3 to 4 feet, with handsome deep green leaves. Will stand some frost.

	10
Gal. cans, 8 to 12 in.	$11 00
5-qt. cans, 12 to 18 in.	15 00

SABAL PALM
The beautiful native Palm of the South, commonly called "Cabbage Palmetto." It has a large head of fan-shaped leaves crowning a straight trunk 20 to 40 feet tall. Good for seaside planting, for it does not object to salt water. Should be more widely used. One of the hardiest Palms.

B&B	10
2 to 3 ft.	$20 00
3 to 4 ft.	27 00
4 to 5 ft.	40 00
5 to 6 ft.	70 00
6 to 8 ft.	135 00
8 to 10 ft.	205 00
10 to 12 ft.	355 00
Wire-Balled	Each
6 to 8 ft.	$18 50
8 to 10 ft.	27 00
10 to 12 ft.	45 00

VINES

FICUS REPENS (Evergreen Climbing Fig)
For covering buildings and walls.

	10
2½-in. pots	$2 00
Gal. cans	6 50

HEDERA HELIX (English Ivy)
Dark green, leathery leaves. Particularly useful in partial shade as vine and ground cover.

HEDERA (IVY), Self-Branching Small-Leaf Type
A fine new variety with unusually small, delicately formed leaves. Exceptionally good for use indoors.

	10
Gal. cans	$6 50

RHYNCHOSPERMUM JASMINOIDES (Confederate Jasmine)
Evergreen. Dark shiny leaves and fragrant, star-shaped, white flowers. Hardy.

	10	100
Gal. cans	$8 50	$75 00

WISTERIA, PURPLE and WHITE

	10
Gal. cans	$8 50

We take pride in our careful and efficient packing and digging; we have the know-how.

This may save you a trip! Don't take a chance! Contact us before coming or sending for a load (particularly in winter months) unless your order has previously been received and acknowledged.

Please read carefully our Conditions of Sale in back of catalog before ordering.

BAMBOOS

ARUNDINARIA JAPONICA (Pseudosasa japonica; Metake)
Hardiest Bamboo, quickly growing 15 feet high. Large, handsome foliage. Spreads rapidly.

BAMBUSA MULTIPLEX (B. argentea)
Vigorous grower for hedges and screens. Handsome foliage and canes which will grow 25 feet.

BAMBUSA MULTIPLEX, SILVERSTRIPE (B. argentea striata)
A similar variety with green canes, striped with yellow near the base. The leaves are also variegated with whitish stripes.

BAMBUSA MULTIPLEX, ALPHONSE KARR (B. verticillata)
Upright clump Bamboo, with yellow and green striped canes about 30 feet high.

All above Bamboos:	10	100
6 to 12 canes	$7 50	$70 00
12 to 18 canes	9 50	85 00
20 to 30 canes	25 50	230 00

PHYLLOSTACHYS AUREA (Golden Bamboo)
Rapidly spreading, very hardy Bamboo, with bright yellow canes. Very graceful. Good for fishing poles.

	10
Single bibs	$3 00

LAWN AND OTHER GRASSES

CORTADERIA ARGENTEA (Pampas Grass)	10	100
Small clumps	$9 00	$85 00
Medium clumps	12 00	110 00
Strong clumps	15 00	140 00
Extra strong clumps	$2.50 each and up	

EREMOCHLOA OPHIUROIDES (Centipede Grass)
Centipede is one of the best lawn and pasture grasses for the South. Spreads by surface runners and is excellent for sunny lawns, both dry and moist soils. Centipede does not thrive under alkaline or excessive lime conditions and should not be fertilized at excessive rates. High fertilization causes heavy mat of grass with roots out of the soil and makes it susceptible to drought and disease. Close mowing at less than 2 inches is recommended. Will set about 1200 square feet per bushel when set 1 foot apart each way.

Bu.	$1 65
10 bu.	14 50

MEYER LEMON

FRUITS AND NUTS

CONTAINER-GROWN CITRUS

Nothing can take the place of sturdy, well-established citrus trees easily and always movable in containers. Use them indoors or out, North or South, to insure superior results in transplanting. Increased emphasis is being placed on "door-yard citrus landscaping."

CALAMONDIN.

KUMQUAT: Marumi, Meiwa, Nagami.

LEMON: Harvey, Meyer, Ponderosa.

LIME: Lakeland, Cameron.

LIMEQUAT: Eustis.

Cutting-grown	10	100

Gal. cans, 12 to 18 in.	12 50	115 00
5-qt. cans, 18 to 24 in.	15 00	140 00

GRAPEFRUIT: Duncan, Foster, Glenred, Marsh Seedless, McCarty, Thompson Pink.

ORANGES: Glen Improved, Glen Summer, Hamlin, Jaffa, King, Lue Gim Gong, Pineapple, Ruby Red, Tangerine, Temple, Variegated, Valencia.

SATSUMA: Owari.

Field-grown on C.T. Stock	10	100
⅜-in. caliper	$8 50	$80 00
½-in. caliper	11 00	105 00
B&B, double above prices.		
5-qt. cans, 18 to 24 in.	17 50	165 00
Gal. cans, 18 to 24 in.	12 50	115 00

FIG, Celeste and Brunswick

Bare-Root	10	100
12 to 18 in.	$3 50	$30 00
18 to 24 in.	5 50	50 00
2 to 3 ft.	7 50	65 00
Gal. cans, 12 to 18 in.	6 50	

GRAPE, Lake Emerald

A cross of Golden Muscat on Pixiola, this fine new bunch Grape is fast becoming better known, particularly in Florida and Gulf Coast areas. Highly disease resistant, the vine is medium sized, with well-rounded trunk. Fruit is borne beneath foliage and shows a translucent emerald-green color. Skin of fruit is fairly tough; pulp soft. Flavor agreeably sweet.

	10	100
Gal. cans, 1 yr.	$10 00	$90 00
Bare-root from gal. can	7 50	65 00

Lake Emerald is more easily propagated in containers in our part of Florida, so we are offering as above to make them available. *Note:* This variety can be cold damaged in north and west Florida and needs well-drained soil wherever planted.

GRAPE, LAKE EMERALD

GRAPE, Blue Lake

This new vine, a cross between Florida No. 43-47 and Caco, was developed at the University of Florida Agricultural Experiment Station. It is extremely prolific and bears large clusters of blue-black berries about ⅜ inch in diameter. The highly disease-resistant Blue Lake is intended to supplement the present limited list of Grapes that are adapted to Florida climates. Blue Lake will be available to you in gallon cans this coming summer.

	Each
Gal. cans, 1 yr.	$1 00

GRAPE, LINDLEY

Fast-growing bunch type producing purplish red fruit of good quality.

	10
Gal. cans	$10 00

GRAPES, MUSCADINE TYPE

James, Scuppernong, Thomas

Bare-Root	10	100
1-yr.	$3 50	$25 00
2-yr.	5 00	40 00
3-yr.	7 50	60 00
Gal. cans (staked)	7 50	

MUSCADINE HYBRID GRAPES

Creek. Very thin skin; large clusters of medium size. Juicy, reddish purple fruit; prolific. Ripens uniformly about October 1.

Tar-Heel. Black, heavy-producing, self-pollinating type. A vigorous grower.

Top Sail. White fruit. Very vigorous but should not be pruned heavily for best yield.

Bare-Root	10
1-yr.	$6 00
2-yr.	8 00
3-yr.	10 00

LOQUAT, Grafted

Advance, Champagne, Gold Nugget, Hastings, Oliver, Premier, Tanaka.

	Each
10-in. cans, 2 to 3 ft.	$2 50
10-in. cans, 3 to 4 ft.	3 50

PEACHES: Angel, Babcock, Hall's Yellow, Jewel, Waldo.

PEARS: Baldwin, Carnes, Hood, Kieffer, LeConte, Orient, Pineapple.

PERSIMMONS: Fuyugaki, Gailey, Hyakume, Okame, Taber #23, Tamopan, Tane-Nashi, Triumph, Tsuru, Zengi.

PLUMS: Abundance, Burbank, Excelsior, Kelsey, McRea, Red June, Satsuma, Terrell, Wild.

Bare-Root	10	100
2 to 3 ft.	$7 50	$65 00
3 to 4 ft.	10 00	85 00
4 to 5 ft.	12 50	110 00
5 to 7 ft.	15 00	130 00
2-yr., 5 to 7 ft. (heavy)	20 00	180 00

Persimmons, Pears, Plums, Peaches	Each
Egg cans, average 4 to 6 ft.	$2 00

PECANS

Pecan trees are an essential part of southern home orchards. They succeed on sandy loam, light clay, or sand and clay. They need moisture but not "wet feet."

Stuart

Bare-Root	10	100
2 to 3 ft.	$15 00	$140 00
3 to 4 ft.	18 00	170 00
4 to 5 ft.	22 00	200 00
5 to 6 ft.	27 00	250 00

CONDITIONS OF SALE

PRICES: Prices herein are for the Wholesale Trade only and cancel all previous Lists. They are based on current conditions and, therefore, subject to CHANGE WITHOUT NOTICE.

It is intended that orders placed at prices in this List shall consist of not less than five (5) plants of a class, as five Hollies, five Oleanders, five Pecans, etc., regardless of varieties ordered to make up that five.

5 will be furnished at the 10 rate

50 will be furnished at the 100 rate

PACKING CHARGES: No charge will be made for packing small potted and bare-rooted stock or bulk carlot and truckload shipments. Packing will be charged (per schedule on page 30) on tubbed specimens, balled and burlapped plants, and large bare-rooted plants.

TERMS: Cash in full with order or satisfactory references are required of those not having established credit with us. A discount of 2% is offered **on nursery stock only for cash with order** or **on delivery by our trucks.** Otherwise all invoices due and payable net 30 days.

RESERVE ORDERS: Reserve orders are accepted upon the condition that they shall be void should injury from any cause not under our control befall the stock before shipment. Stock held in our fields on reserve long enough to grow to larger grade will be billed accordingly when stock is ordered shipped. We reserve the right, after due notice to customer, where no initial deposit is received, to cancel order or sell the stock elsewhere, if reserve order or portion thereof is held here unshipped or uncalled for beyond current shipping season or for an unreasonable length of time.

CLAIMS: Claims must be made immediately upon receipt of goods. If an error has been made by us, please notify us at once so we can adjust the matter fairly. Our stock is well grown, carefully packed and otherwise handled to conform with generally accepted standards of nursery practice. Claims for in-transit damage or delay should be filed promptly with the transportation company. In no case shall our liability be more than the original invoice value of the order.

NON-WARRANTY: The Glen Saint Mary Nurseries Company gives no warranty, express or implied, as to the variety or productivity of any nursery stock it sells. No liability is assumed by seller for delay or failure to deliver caused by wars, strikes, fires, floods, droughts, embargoes or any other contingencies beyond seller's control. If the purchaser does not accept the goods on these terms, they are to be returned.

SHIPPING INSTRUCTIONS: We ask our patrons to furnish complete shipping instructions with each order, as to both method of transportation and destination. Lacking this information, we claim the right to ship in the manner we deem most advantageous to the customer. Our liability ceases upon delivery in good order to the transportation company or to private carrier. NOTE: Heavy shipments of B&B materials may often travel cheaper and almost as fast via HIGHWAY FREIGHT rather than by EXPRESS.

DELIVERY BY OUR TRUCKS will be at the rate of 25c per mile one way. Our three big trucks are always on hand to help with delivery problems if necessary.

SPLIT LOADS. It is often possible for us to deliver several orders on one load, the delivery cost being prorated on a percentage of total basis.
